

West Farm Development

Architect: Miller Partnership
 Product: Timber Sliding Shutters

CASE STUDY

A STUNNING DEVELOPMENT OF SIX CONTEMPORARY PROPERTIES WITH A RURAL TWIST. Situated in the stunningly picturesque village of Earsdon in Whitley Bay; West Farm Steading is an extraordinary boutique development designed for contemporary living with a rural twist. Set within a beautifully converted farm that dates back to the 19th and 20th centuries, is a collection of six private, re-invented spaces devised from cutting-edge architecture and exquisite design. Developed with sensitivity and skill, with bespoke homes that exude a sense of unpretentious luxury with their sleek styling and handcrafted features. The development uses a palate of materials complementary to the character of the conservation Area. Stone from demolition was re-used on site as far as possible. Steel, aluminium, glass, untreated oak boarding and green roofing was used for construction of contemporary interventions; purposely contrasted and clearly distinct from the original building fabric. Contrasol were engaged on a specialist basis, designing and installing bespoke sliding shutter systems on the strength of our reputation for quality, reliability and attention to detail.
