

Eclipse Leisure Centre, Surrey

Architect: Architecture GT3

Products: Bespoke Perforated Aluminium Panels, Brise Soleil and Louvres

Case Study:

Worthing Borough Council commissioned Contrasol to design, manufacture and install bespoke vertical perforated bronzed fins, horizontal brise soleil and timber-effect louvres that all serve to visually elevate Eclipse Leisure Centre as well as providing shading and increased comfort to the leisure centre's guests and staff. A Passivahaus Leisure Centre, our solar shading systems contributed to maintaining the highest standards of energy efficiency.
